VIENA

## VIENA

Classical wall/ceiling luminaire giving an even glare-free light through the satinized opal silk glass cover.

**VIENA + Emergency Light**  
Specific components such as monitoring modules, AC/DC switching points, address modules and individual batteries can be integrated for the emergency lighting function.

► To specify choice of emergency components, please add:

- .06 Emergency light E14
- .07 Single battery 1 hour
- .08 Single battery 3 hour
- .09 Mains-battery switch

**VIENA**

Universally usable series of "just glass" luminaires. With 3-point bayonet fixing, enabling simple installation and maintenance of the luminaires tool-free.

**Lighting Technology**

Milky flashed glass/opal glass, still produced by hand by glass blowers. Once cooled down, the edges are ground off and the surface of the glass body is treated. Dipped in hydrofluoric acid, the glass receives its characteristic, satin-matt surface finish.

## VIENA

Customer requests can be individually catered for using accessories and add-on parts. VIENA project luminaires with wide, solid aluminium rings are finished with a scotched surface as a high-quality detail.

**VIENA**

Classic surface-mounted wall/ceiling luminaire with opalized glass cover with satin-matt finish. Luminaire fixture made of sheet-steel, powder-coated satin-matt white. Glass mounted with 3-point bayonet fixing.

Equipped for compact fluorescent lamps with electronic control gear. Electrical components covered by inner reflector. Prewired with heat-resistant cable and ready-to-connect. Double cable entry. Terminal block for through-wiring, 3-pole. Emergency lighting versions compliant to DIN VDE 0108 are available.
